# NOTES FOR BOYS

FOREWORD

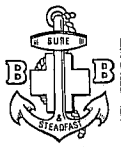

"These Drill Notes for Boys have been made to assist Officers in the task of teaching Drill. They must not be seen as a replacement for Practical Drill or as a self teaching resource.

The notes have been carefully structured to highlight the important points of Drill in a way to involve Boys. Spaces have been left for Boys to complete notes and diagrams thus involving them in the learning process.

---

The notes were prepared by

Derrick Hannan and Andrew Main - Lieutenants 1 Airdrie Company.
